

# STREAMING PLATTFORM

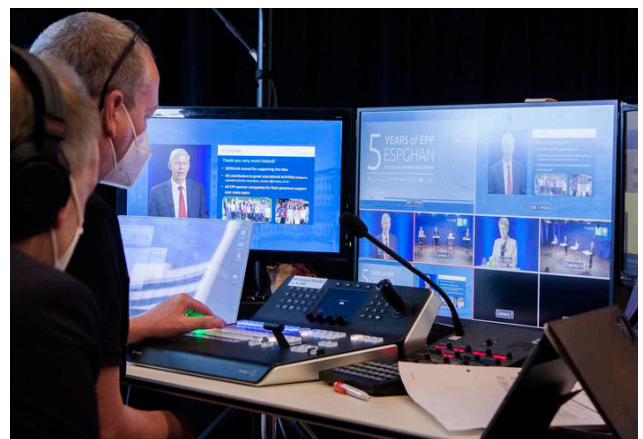

Our equipment packages for streaming formats give you genuine planning security for affordable digital events, whatever the size.

The world has become a far more digitalised place since the outbreak of the pandemic. And to help our customers keep up with the latest trends, we have developed solutions that enable them to deliver content to a wider audience.

We offer full service from a single provider – from the physical venue to recording and live streaming your event to digital participants worldwide.

Our high-performance streaming platform featuring your branding gives an online audience access to your event.

We can also provide moderated chats, surveys and video on demand. To complement our streaming services we offer a range of outstanding equipment packages – for every format from small settings through to high-end concepts.

Rooms to grow ideas.

# Our digital packages

senden Vortrag! Gibt es ihn auch als Download? LG

Daniela Meyerhofer Liebe Carina, das freut mich sehr zu hören! Der Stream ist auf dieser Plattform noch für die kommenden zwei Tage abrufbar. Sollten du noch weitere Informationen benötigen, sende bitte ein Mail an unser Headquarter unter email@acv.at

George Van Keekhoven Congrats! I'm looking forward to see you on TEDSTF 2023 in Brussels.

Paul Jovanovic Hallo! Was mich noch interessieren würde was sich KI für eine Rolle in der Cyber-Security und wie sich diese übermacht? Danke und liebe Grüße, Paul

Elia Schick Die würde ich auch gerne genauer wissen... :)

Daniela Meyerhofer Danke für diese wichtige Frage, die strategischen Entwicklungen und die nötigen Sicherheitsprotokolle für KI basierte Forschung nimmt eine zentrale Stelle in unserem Headquarter ein. Die aktuellen Entwicklungen und Forschungsergebnisse sind auf unserer Website.

**Live-Stream Shaping the future** | 10:00 - 12:00 CEST

Wir sind die führende Anbieter auf dem Gebiet der Cyber-Security und laden Sie ein, gemeinsam mit Fachexperten die zukünftigen Trends und strategischen Entwicklungen der Branche zu diskutieren. In diesem Live-Vortrag "Shaping the future" gibt Max Mustermann einen Überblick über die am Markt etablierten Systeme und State of the Art Technologien.
