

# LEVEL -2 MODERNISATION PROJECT

START OF CONSTRUCTION: MAY 2024

COMPLETION: SPRING 2025

Level -2 – one of the most popular of all the event spaces at the Austria Center Vienna – is currently being fully modernised. Once the project is completed, it will feature seven halls as well as practical adjacent rooms, foyers and spacious terraces that look out over the Donaupark and Vienna International Centre. The venue will be continuing to apply a consistent focus on sustainability and digitalisation throughout.

## LEVEL -2 IN DETAIL:

## PROFILE OF LEVEL -2:

- **Perfectly integrated:** accessible directly from the main square outside the venue either via Entrance 1 (which now features two brand new stairwells, four elevators and escalators) or via Entrance 2 (which has escalator, elevator and stair access).
- **7 modern halls:** 3 light and spacious halls equipped with state-of-the-art technology, each of which can be partitioned as required or divided into three
- **Spacious, open foyers:** right next to the halls, mostly with direct access to the halls and terraces
- **Flexible layouts:** rooms for 60-100 people, offices and executive offices in the immediate vicinity of the halls
- **For up to 2,500 people** (not including adjacent halls): ideal for self-contained event concepts
- **Perfect for combination** with Halls X1, X2 and X3 and Level 0
- **Large-format LED displays:** ideal for signage and branding

## HALL D

LIGHT, DIVISIBLE INTO THREE ROOMS, 60M<sup>2</sup>, PERMANENTLY INSTALLED LED WALL

Arranged in a theatre seating layout, Hall D – the largest hall on Level -2 – can accommodate 1,426 people. Inside, the hall is bright and welcoming. Load-bearing anchor points are installed across the black industrial-look ceiling. New stage elements set the scene for every setting imaginable. The main stage features a permanently installed 15m x 4.05m LED wall.

Once the Level -2 upgrade and refurbishment project is complete, organisers will have the option of using soundproof mobile partition walls to divide Hall D into three separate spaces for 660 (D1), 380 (D2) and 380 people (D3). All three can be accessed independently of each other. Within the subdivided space, both Halls D2 and D3 can be equipped with the latest projection technology.

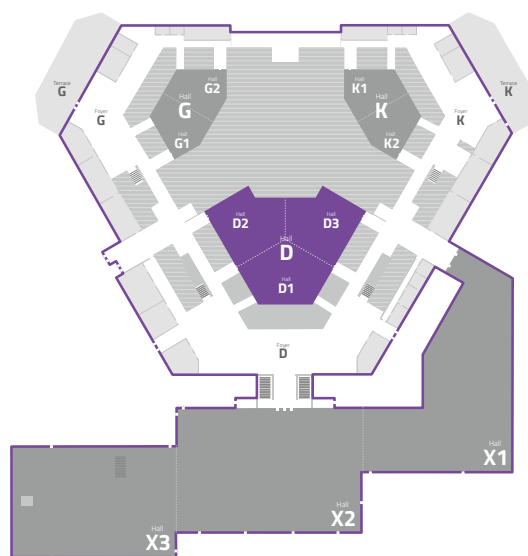

**Hall D** (view of the stage): 60m<sup>2</sup> permanently installed LED wall

**Hall D** (view from the stage): Modern, light design

**Hall D1** (partitioned): Equipped with the latest projection technology and separately accessible

## FOYER D

### ATTRACTIVE CATERING & EXHIBITION SPACE

Foyer D – which is directly outside Hall D – will be extended to create an even more attractive catering and exhibition space. And on the opposite side of the foyer, participants have easy access to a series of spacious rooms. Created using mobile folding wall solutions these natural-light-filled

spaces have a capacity of 60-100 people. New, generous LED displays in all foyer and corridor areas help participants find their way around while also adding custom branding opportunities.

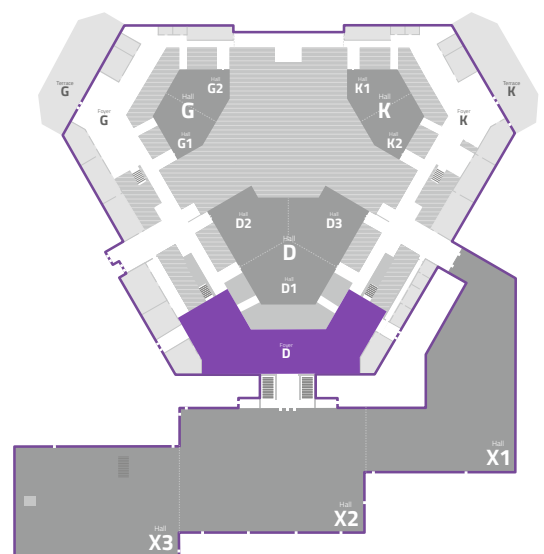

**Foyer D** (view coming from Hall X2): Large-format LED displays and light-flooded areas

**Foyer D** (looking towards Room -2.32): Room -2.31 open

**Foyer D** (in the direction of Foyer K): New LED displays for branding and signage

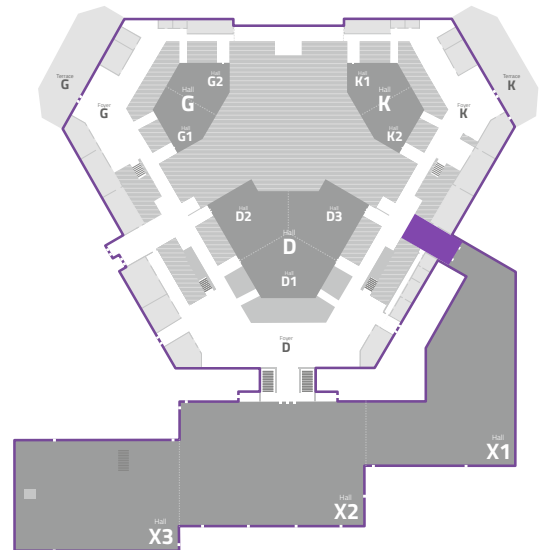

## DIRECT ACCESS TO HALLS X1 AND X2

### IDEAL ACCESS TO THE HALLS

Uninterrupted links between Hall X2 and Hall X1 and the foyer and corridor areas allow for perfect visitor flows between the main building and halls.

**Hall X1 access** (view of entrance Hall D3 coming from Hall X1):  
Redesign of the walkway to Hall X1

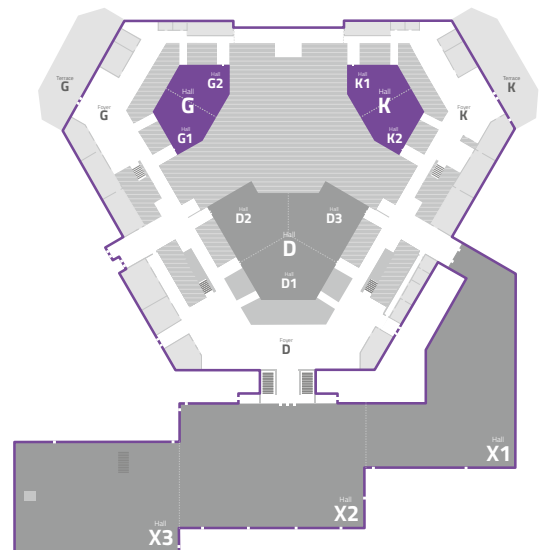

## HALL G AND HALL K

### NEW DESIGN - EACH STILL PARTITIONABLE INTO TWO SEPARATE SPACES

The design concept and fixtures found in Hall D will continue in Halls G and Hall K – and both spaces will remain fully partitionable. Capacities: 450 participants in row seating, 220 in each space when partitioned.

**Hall K** (view of the stage)

## FOYER G AND FOYER K

### NETWORKING AREA WITH ADJOINING TERRACES

Located in front of Halls G and K, Foyers G and K – both of which feature adjoining terraces – can be easily extended thanks to mobile folding walls.

The newly created spaces adjacent to the foyers feature high-quality furnishings and reflect a continuation of the design concept found throughout the rest of the venue.

**Foyer K:** Networking in the sun
